Cap Closing Machine in Raipur

- Plastic Cap Closing SPS 40P

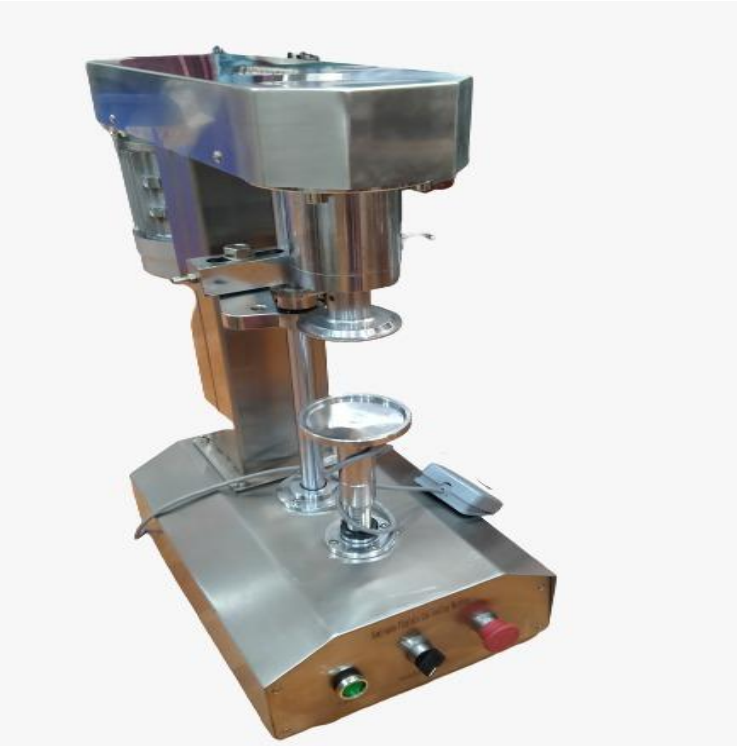
The cap closing machine in Raipur is highly efficient. Place a bottle between the clamps on the base that moves up and down. The top rotating rod comes down as the bottle is pushed upwards. The cap is fit to perfection in less than a few seconds. There are absolutely no chances of tampering.

- Metal Cap Closing SPS 40M

The metal cap closing machine in Raipur by Smart Pack is a highly efficient model with a capacity of 1200 bottles per hour. The machine screws metal caps on glass, plastic, metal, and PE bottles at a steady pace.

- Tin Cap Sealing Machine

A semi-automatic tin cap sealing machine, also known as a capping machine, is used to seal off round bottles at the speed of 15-25 bottles per minute. Our semi-automatic machine is equipped with a cam and follower mechanism that eliminates the need for manual sealing pressure.



Applications

- A tin cap Sealing machine finds application in industrial and general packing operations.
- This machine is also suitable for agricultural, cosmetic, chemical, food, and beverage industries.
- This machine is also used in industries based on medical and household-related products.
